SCHOOL CURRICULUM

The Curriculum is based on CBSE directives and NCERT course. All aspects of academics are taken care of with due emphasis on interactive learning. Theory and Practicals are given due importance.

The core curriculum is designed to give students an in-depth mastery of the academic disciplines and applied functional areas. The curriculum gives students a balance of theoretical and practical knowledge that facilitates a learning environment where students learn, analyze and apply — rather than merely know. The nurturing of a child's academic curiosity and development is at the centre of our curriculum.

TEACHING METHODOLOGY

Teaching is very interactive and student friendly. Students are encouraged to ask questions. Scientific fervor and temper is fostered and encouraged. Learning by doing is ensured. Revision cycles are planned, class work and home tasks are periodically and scrupulously checked by teachers. Lesson plans and assignments are devised right from the beginning of the session, to avoid any snag. Language nuances are taught and reinforced through language lab. Other subjects including languages are also taught through smart classes. Remedial for slow learners.

MAIN SUBJECTS OFFERED IN PRIMARY AND UPPER PRIMARY

English, Hindi, Mathematics, EVS (Grade 1st and 2nd)

The following are the subjects offered :- (Upper Primary- Grade 3rd to Grade 8th)

- Language I (English)
